Three roles, 📈 *one direction.*

01 · ROLE / COMPANY	02 · WHEN	03 · WHAT I SHIPPED
Senior Product Engineer *Lumen Labs*	2022 – now	**Rebuilt the billing platform** Failed-payment churn down 31%. Mentored 4 engineers.
Full-Stack Engineer *Brightwave*	2019 – 2022	**Real-time collaboration** Used by 120k monthly users. p95 latency 840ms → 190ms.
Web Developer *Freelance*	2017 – 2019	**20+ sites and apps** For startups and local businesses, end to end.

Every role shipped to production and was measured in numbers. *Impact over output.*

My toolbox, 🧰 *built for shipping.*

01 · LANGUAGES	02 · FRONTEND	03 · BACKEND	04 · INFRA
TypeScript	React	Node.js	AWS
Python	Next.js	PostgreSQL	Docker
Go	Tailwind	Redis	Terraform
SQL	Figma	GraphQL	CI/CD

TypeScript end to end, Postgres underneath, AWS around it.

Boring tech wins.
